The Programme

An Early Childhood Education Course for teachers, aspiring teachers and even parents who are looking at understanding the young child's needs to help him develop skills using innovative methods that will help bring out the creativity of the child, this in turn will enhance his learning skills in a non-threatening environment. It will also help to develop the understanding of the young child and build up skills in methodology in guiding him at home or in school.

This course will also run workshops to assist those who are planning to set up Day Care Centres with the child's safety and health being of paramount importance.

Accreditation

You will receive a certificate to demonstrate your participation. At least **eighty percent** attendance is required.

Participants are also expected to be on time so they don't miss out on the preliminary instructions and to submit assignments on the given date.
